PRECIOUS UDOFIA

QA TESTER | MANUAL, REGRESSION & EXPLORATORY TESTING | PLAYWRIGHT & API TESTING

Uyo, Nigeria (Remote) | udofiaprecawise@gmail.com | +234 907 858 0248 | linkedin.com/in/precious-udofia-998388269 | github.com/precawise

PROFESSIONAL SUMMARY

QA Tester with 3+ years of hands-on experience testing web applications in Agile/Scrum teams. Designed 560+ test cases across 16 modules of two client admin portals, covering functional, regression, exploratory, UI, form-validation, authentication, and role-based access-control testing. Writes clear, reproducible Jira bug reports and test summary reports. Automates regression checks with Playwright and TypeScript.

CORE SKILLS

Testing: Manual, Functional, Regression, Exploratory, UI, Negative, Form Validation, Authentication, Role-Based Access Control (RBAC), Responsive, Web Application Testing
Tools: Jira, Chrome DevTools, GitHub, GitLab, Google Sheets / Microsoft Excel, Google Docs
QA Process: Test Planning, Test Case Design, Test Execution, Bug Reporting (Severity & Priority), Test Summary Reports, Scrum (Sprint Planning, Daily Stand-ups, Retrospectives)
Automation & Technical: Playwright + TypeScript (page objects, GitHub Actions CI), Basic API Testing, JavaScript for test scripts, HTML/CSS for locators and UI checks

PROFESSIONAL EXPERIENCE

QA Tester & Scrum Team Member | *Alozie / Alozino Techno* | *Jan 2023 – Present*

- Designed 560+ structured test cases across 16 modules of two client admin portals, covering login, SSO, dashboard, job openings, applications, users, roles, permissions, subsidiaries, and contact messages.
- Executed 420+ test cases against requirements and expected user behavior, and reported pass, fail, blocked, and in-progress results in module-level test summary reports with a production-readiness recommendation.
- Performed functional, regression, exploratory, negative, UI, form-validation, authentication, and access-control testing across sprints.
- Verified role-based access control end to end (module visibility, restricted URLs, create/edit/delete rights, role deactivation), found an access gap on role deactivation, and recommended a bulk user-reassignment fix.
- Logged and tracked defects in Jira with reproduction steps, expected vs actual results, severity, priority, and evidence, including a critical search defect that returned incomplete records.
- Ran regression testing after fixes and application changes to confirm existing functionality remained stable.
- Tested forms, search, filters, pagination, validation messages, navigation, edge cases, responsive layouts, and UI states, including dark mode.
- Worked with developers and Scrum team members to reproduce defects, clarify expected behavior, and verify fixes.
- Took part in sprint planning, daily stand-ups, and retrospectives as part of a cross-functional Scrum team.

PROJECTS

QA Portfolio: Case Studies & Test Automation | *Portfolio: precawise.sigmadev.digital*

- Contact-portal case study (github.com/precawise/contact-portal-manual-qa): published an anonymized

test plan, 285 test cases, 9 bug reports, and a test summary from real client work; 263 cases executed at a 97.9% pass rate, surfacing 3 critical defects, including a role-deactivation access gap.

- Admin-portal case study (github.com/precawise/admin-portal-manual-qa): 302 test cases across 8 modules covering UI states, form validation, and API checks; 196 executed with 0 failures.
- Playwright + TypeScript suite (github.com/precawise/playwright-saucedemo-tests): automated 16 of my manual test cases as 28 desktop and mobile checks with page objects and GitHub Actions CI.

EDUCATION & CERTIFICATIONS

B.Sc. Theatre — In Progress, University of Uyo, Nigeria | Scrum Foundations — In Progress

ADDITIONAL

Open to remote, contract, and full-time QA Tester, QA Analyst, and junior QA/Automation Engineer roles. Based in Uyo, Nigeria (WAT, UTC+1) and comfortable working asynchronously with distributed, cross-functional teams.
